**RE: 2023 ROAD PROJECT
Resident Notification**

Dear Owner(s) or Current Resident(s),

Perkiomen Township awarded the 2023 Road Project for annual road maintenance work to Innovative Construction Services, Inc. (Inncon). The Contractor will begin working on paving operations on or about the week of **June 19, 2023**. Construction working hours are between 7am and 4pm, and may be extended to 5pm if permitted by the Township, weekdays excluding holidays.

Below is a summary of the proposed road work:

Schoolhouse Road – A portion of the roadway surface will be milled to a 1.5 inch depth for the full roadway width. Failing portions of the road base course will be removed and replaced. The roadway will then be overlaid with new bituminous paving.

Seitz Road – A portion of the roadway will be excavated to a depth of 6 inches for total reconstruction, which will include a new bituminous base course. The roadway will then be overlaid with a new bituminous surface course.

Please note that on-street parking is prohibited on these roadways. Parking on-street may result in your vehicle being towed away during construction operations.

Traffic Control for Schoolhouse Road will result in a single lane road closure with a one-lane operation, which utilizes a stop and go pattern. It is anticipated that Schoolhouse Road work will take approximately two-four days.

Traffic Control for Seitz Road will include a full roadway closure and a detour, with limited access permitted for local residents. It is anticipated that Seitz Road reconstruction work will take approximately two-four weeks. Additional detour details are available on the Township's website.

Driveways will remain accessible during construction operations. The contractor will advise you of any driveway access restrictions, if applicable. Traffic Control during active construction will result in location based delays. **Please plan accordingly.**

We encourage residents to enroll with **Blackboard Connect** in order to receive prompt Township updates via text or email. Enrollment for Blackboard Connect can be accessed at the bottom of the Township website: <https://perkiomentownship.org/>.

This is a necessary and temporary inconvenience in order for us to maintain our roadways. We thank you in advance for your cooperation. If you have any questions regarding our 2023 Road Projects, please contact our Road Master, Shawn Motsavage at 610-489-4034 at ext. 116 or our Township Engineer, Nick Szeredai at 610-468-4742.

Respectfully yours,

Perkiomen Township
Cecile M. Daniel, Township Manager
